Modular seating system molded in Appryl 3060 MN5 polypropylene with anti-static copolymer. Seats are available with upholstered seat and back cushions in a wide variety of vinyls and fabrics. The structure is made with two rectangular tubes with section 2.25 x 13/16 x .08 in. cold rolled steel, united by crossbars and elements for attaching to the seats with .20 in stamped steel plate. All steel parts are coated with anti-corrosive epoxy paint.

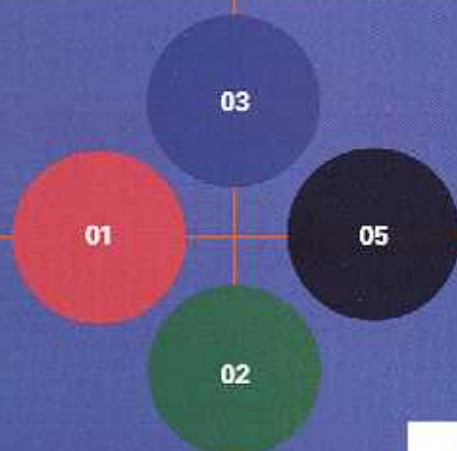

Legs for the 9000 model are made of cast aluminum and anodized finished. Legs for the 8000 are cast iron painted with epoxy with 100 micron thickness.

Armrest are pressed steel with polyurethane coating for comfort and durability.

Quality standard UNE EN ISO 9002 Certificate of Approval on all products. Seating meets ANSI-BIFMA test standards.

9000 Series
